1. Review of Consolidated Financial Results

(1) Operating Results

In the first nine months of the fiscal year ending December 31, 2018, the Japanese economy stayed on its recent moderate recovery track, supported by the positive impact of government policies that have boosted personal spending, improved employment conditions and expanded corporate profits. However, the future outlook remains clouded by the impact that trade issues could have on the global economy and the uncertainties in the economic conditions abroad.

In this environment, the Tsukada Global Holdings Group endeavored to increase sales and profitability by accurately responding to increasingly individualized and diversifying customer needs in the bridal, hotel, and wellness and relaxation (W&R) markets, while also continuing its efforts to create new value and develop high-quality, appealing outlets capable of providing high value-added services. During the nine months, the Group continued its efforts to expand earnings and geographical operating areas. For example, we opened ArtGrace Next Ashiya in Hyogo Prefecture in March and made steady progress on Kimpton Hotel Shinjuku, Tokyo (provisional name), scheduled to open in 2020 in Tokyo's Shinjuku Ward.

As a result of these efforts, in the first nine months of 2018, Tsukada Global Holdings Inc. ("the Company") posted consolidated net sales of ¥42,330 million (up 6.3 year on year). The Company recorded an operating income of ¥1,872 million (up 39.0% year on year), an ordinary income of ¥2,015 million (up 39.4% year on year) and net income of ¥1,218 million (up 105.0% year on year) attributable to owners of the parent.

The results for each business segment were as follows.

1) Wedding business

In the first nine months of fiscal 2018, sales grew in the wedding business bolstered by an increase in the number of weddings held in the mainstay Japanese market as well as at overseas facilities. Segment profits increased on the back of increased facility occupation in the period despite the impact of the startup costs for ArtGrace Next Ashiya.

As a result, net sales in the wedding business totaled $\pm 26,405$ million (up 8.5% year on year) and segment operating income totaled $\pm 3,069$ million (up 18.7% year on year).

2) Hotel business

The number of weddings held at our hotels decreased slightly in the first nine months of fiscal 2018, but segment sales increased as overnight occupancy rates and average charge per night grew strongly overall. The high occupancy rate as a whole contributed to an increase in segment profits.

As a result, net sales in the hotel business came to ¥13,019 million (up 1.7% year on year), and segment operating income totaled ¥319 million (up 0.3%).

3) W&R business (Wellness & Relaxation business)

This segment achieved strong sales growth in the period under review, as it increased memberships at its Best Style Fitness Shin-Urayasu comprehensive fitness club that opened in 2017 as well as at the fitness department of the Beauty & Relax SPA-HERBS spa complex. However, the segment posted an operating loss owing to the startup cost of eight Queensway reflexology salons and Best Style Fitness Balance Ginza and due to

seasonal factors.

As a result, the W&R business posted net sales of ¥2,905 million (up 8.0% year on year) and an operating loss of ¥276 million (compared with a loss of ¥271 million a year earlier).

(2) Analysis of Financial Condition

Assets, Liabilities, and Net Assets

Total assets as of September 30, 2018, the end of the first nine months of fiscal 2018, amounted to ¥83,932 million, a decrease of ¥515 million from the end of the previous fiscal year (December 31, 2017). The decline mainly reflects changes in fixed assets, in particular a ¥5,799 million decrease in the value of land holdings and a ¥1,105 million decline in buildings and structures, which more than offset a ¥1,135 million increase in other fixed assets (mainly construction in progress) related to the construction of Kimpton Hotel Shinjuku, Tokyo (provisional name) and a ¥5,333 million increase in cash and deposits owing to proceeds on the sale of commercial-use land at Jingumae in Tokyo as well as financing.

Total liabilities as of September 30, 2018, came to ¥47,772 million, a decrease of ¥893 million from the end of the previous fiscal year. The decline reflects a ¥7,610 million reduction in short-term debt, a ¥500 million fall in the current portion of convertible bonds with stock acquisition rights and a ¥728 million decrease in income taxes payable, which outweighed a ¥8,094 million increase in long-term debt related to financing capital investments (including the current portion of long-term debt).

Net assets as of September 30, 2018, totaled ¥36,159 million, ¥378 million more than at the end of the previous fiscal year. The major changes is a ¥827 million increase in retained earnings reflecting the posting of a quarterly net profit attributable to owners of the parent, which offset a ¥282 million decrease in foreign currency translation adjustments caused by the stronger yen.

(3) Notes on Quarterly Consolidated Financial Statements

(Note on the Going-concern Assumption) Not applicable

(Note on Significant Changes in the Amount of Shareholders' Equity) Not applicable

(Changes in Significant Subsidiaries for the Nine Months Ended September 30, 2018) Effective from the first quarter ended March 31, 2018 of the current fiscal year, Best Bridal Korea Inc., which used to be a consolidated subsidiary of the Company in the previous fiscal year, has now been excluded from the scope of consolidation due to the lack of materiality.

(Application of Specific Accounting Methods for the Preparation of Quarterly Financial Statements)

(Simplified accounting methods)

- Calculation method for depreciation of fixed assets
 Depreciation expenses for assets to which the declining-balance method is applied are
 calculated by allocating a quarterly proportion of the amount for the full fiscal year.
- 2) Calculation method for deferred tax assets and deferred tax liabilities

Regarding judgments on the amount of recoverable deferred tax assets, the Company has determined that there have been no significant changes in the economic environment or emergence of temporary differences since the end of the previous fiscal year, and therefore the calculations are based on future earnings forecasts from the previous year and tax planning methods.

(Special accounting treatments)

Calculation of taxes

The Company calculates tax liabilities by producing a reasonable estimate of the effective tax rate after applying tax-effect accounting to income before income taxes for the fiscal year, which encompasses the third quarter ended September 30, 2018, and then multiplying profit before income taxes by this estimated effective tax rate. In cases where this estimated effective tax rate cannot be used, the statutory effective tax rate is used.

(Additional Information)

Some of the Company's consolidated subsidiaries used to have a lump-sum retirement payment plan, as well as defined benefit and defined contribution corporate pension plans. Effective on April 1, 2018, however, these plans have been abolished. In relation to this abolishment, "Accounting Treatment concerning Transfer, etc. between Retirement Benefit Plans" (ASBJ Implementation Guidance No. 1 on Accounting Standard) and "Practical Solution on Accounting Treatment concerning Transfers, etc. between Retirement Benefit Plans" (Practical Issues Task Force PITF No. 2) have been implemented. The financial effect of the said implementation is immaterial on the nine months of the fiscal year ending December 31, 2018.

2. Segment income or loss adjustments are based on operating income reported on the quarterly consolidated statements of income for the corresponding period.

2. Impairment loss on fixed assets or goodwill by reportable segment

(Significant impairment loss on fixed assets)

As decreased profitability remained in some fixed assets held in the "Wedding business" and "W&R business" segments, the Company concluded that the recovery of the investment in these assets could not likely be made. Hence, the book value of these assets was written down to the recoverable amount, while the resulting extraordinary loss was reported as impairment loss. Accordingly, the impairment loss of 139 million yen in the "Wedding business" segment and 10 million yen in the "W&R business" segment was reported respectively in the first nine months of the fiscal year ending December 31, 2017.
